

CHERASER'S *Journey*

Cheraser is a young guy who embraces popular culture. He loves sports, music and any establishment that serves alcohol. He is searching for real friendship and intimacy, but so far has only found counterfeit relationships through an addiction that men tend to hide. He tries to live his life with a smile, but does his existence have a point? Cheraser struggles to see anything outside the cocoon of his sub-culture, but is there something deeper that he needs to discover? As he begins a journey to find some answers, an unseen battle for his heart starts to intensify.

But are the very people who could lead him to the truth unwittingly hindering his attempts to find it?
